DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-7 are rejected as failing to define the invention in the manner required by 35 U.S.C. 112, second paragraph.

The claim(s) are narrative in form and replete with indefinite and functional or operational language. The structure which goes to make up the device must be clearly and positively specified. The structure must be organized and correlated in such a manner as to present a complete operative device. The claim(s) must be in one sentence form only. Note the format of the claims in the patent(s) cited.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-5 are rejected under 35 U.S.C. 102(b) as being anticipated by Faber et al. (6,302,465).

Faber discloses a pickup truck tailgate (60"), shown in Figures 6A and 6B. The tailgate (60") has a vertical position, an outwardly pivoted position, and an inwardly pivoted position in which it is stored in recess (70") and fits flush with the truck bed (20"). The tailgate (60")

Art Unit: 3612

moves between these positions using hinges (140). A handle (50,55), best shown in Figure 5B, accommodates the three-way operation of the tailgate (60”).

5. Claim 6 is rejected under 35 U.S.C. 102(b) as being anticipated by Mazarac (5,550,681).

Mazarac discloses a stationary mirror (10) that provides better visibility when backing up the vehicle to which the mirror (10) is attached.

6. Claim 7 is rejected under 35 U.S.C. 102(b) as being anticipated by Johnson et al. (5,228,742).

Johnson et al. discloses a tailgate (18,130) that is made from a scratch resistant material that matches the color of the truck bed to which the tailgate is attached.
